PROFESSIONAL SUMMARY

Motivated fresher with hands-on experience building web applications and automation scripts using Python. Proficient in Django/Flask, REST APIs, and relational databases with solid grasp of OOP and data structures. Passionate about writing clean, efficient code and eager to contribute to fast-paced software development teams.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript basics
Frameworks & Libraries: Django, Django REST Framework, Flask, NumPy, Pandas, OpenCV
Databases: MySQL, PostgreSQL, SQLite, MongoDB
Concepts: OOP, Data Structures & Algorithms, Multithreading, REST APIs, Unit Testing
Developer Tools: Git, GitHub, VS Code, Postman, Docker, Linux/Bash, AWS basic

EDUCATION

B.Tech in Information Technology | Paavai Engineering College | 2022 - 2026 | CGPA: 83%
Higher Secondary Certificate - 12th Grade | Cheran Matric Hr Sec School | 2020 - 2022 | 74%

EXPERIENCE / INTERNSHIP

Python Developer Intern | Jun 2025 - Aug 2025
- Contributed to backend feature development for an internal Django-based web application
- Fixed bugs and optimized database queries, improving average API response time by 20%
- Collaborated with a team of 4 using Git for version control and Agile sprint practices

KEY PROJECTS

Multimedia Image Steganography for Military Applications
- Hides secret military data inside images using LSB Steganography with AES-256 encryption
- Tech Stack: Python, Django REST Framework, PostgreSQL, JWT, OpenCV, Pillow

Smart Farming Assistant
- Java-based modular advisory logic for irrigation, fertilizer, soil moisture & pest alerts
- Tech Stack: Java, OOP, Data Structures, ArrayList, Stack

CERTIFICATIONS & ACHIEVEMENTS

- Python for Everybody Specialization - University of Michigan - Coursera
- Django Web Development - Udemy | HackerRank Python Certified
- 1st Runner-up, College-Level Coding Competition
- Solved 150+ DSA problems on LeetCode / GeeksforGeeks in Python
